Dear Ms. Stillman,

Thank you for your email. We are in touch with CD5 and have shared information about the input that has been received on this project. I am also including our Board and Planning and Land Use Committee on this response so that they are also aware. I can assure you that we consider all input that is received in our advisory role to the City on decisions such as these.

Sincerely,  
Travis Longcore

Dear Mr. Longcore,

I live in Bel Air Ridge on the east side of Beverly Glen, and I am writing to oppose the proposed Bel Air Glen gating project.

Many of us opposing this project have written previously to Councilman Koretz, to Jarett Thompson and/or to the City Engineer reviewing this project. **I hope that Councilman Koretz's office will share these letters with you.**

Gates would create more traffic on Beverly Glen Blvd, deny many Bel Air Ridge residents direct access to their amenities and pose a safety issue for all involved.

Bel Air Glen claims that they want to install gates to alleviate traffic on Woodwardia, to slow cars on Woodwardia and/or to discourage crime. However, if you carefully examine BAG's claims re: these issues (and read recent studies), you'll see that these proposed gates are, in fact, a solution in search of a problem.

Thank you.

Sincerely,  
Karen Stillman
