(This is not part of the Sepulveda Transit Corridor Project)

At its 09/13 meeting, the BABCNC Traffic Committee discussed the Metro project, in which Metro is evaluating alternatives to convert existing high-occupancy vehicle (HOV) lanes to dynamically-priced, high-occupancy toll (HOT) lanes, also called ExpressLanes, in the southbound & northbound directions of the I-405 Sepulveda Pass, between US-101 & I-10. The committee voted to reject the proposal for the toll lanes and to write a letter detailing the reasons why.

For further information on the project, see Metro's announcement in the link below:
