## About BABCNC

LA's Neighborhood Council system was established 1999 to better connect LA's diverse communities to City Hall. Neighborhood Council board members are elected residents from your neighborhood.

We continually:

- Advocate for key local issues downtown
- Present city issues to the neighborhood
- Interface with city council staff and other city officials on your behalf

## What We Do

- Review construction projects seeking discretionary permits as well as land use ordinances.
- Protect our native habitat and wildlife.
- Help constituents and communities prepare for disasters.
- Review traffic problems and solutions.
- Provide input regarding city ordinances impacting our neighborhood ... and much more
