Extensive discussion led to a decision to open a Google Doc for the purpose of drafting a proposed consolidated comment letter, with each committee member filling in their proposed language. The resulting document will then be reviewed at meetings on February 18 and February 20 before submission for full board approval.

**6. Discussion and Possible Motion**

Review motions in the 25-0006 Council File series and mayoral orders related to debris flow and landslide risk and assess whether BABCNC will provide feedback, and devise the substance of any feedback.

**Motion:** To add to the comment letter that hazardous materials burned in the fire, and that the City should not let toxic materials remain in the ground. Enough soil should be removed to allow for certainty that no toxic materials remain.  
Moved by Ellen; seconded by Tim. Approved unanimously.
